

# Biochemistry BS/BA Course Requirements (2023)

An undergraduate degree in Biochemistry provides students with significant flexibility to fashion a degree to meet their educational goals. A student who receives a Biochem degree will be prepared to enter the workforce in a wide variety of areas that include pharmaceutical sciences & biotechnology, or to pursue advanced degrees in the biochemical sciences. Students will explore biophysical and biochemical aspects of life processes at the molecular level & select electives that provide depth and breadth.

← Complete ePortfolio<sup>5</sup> →

- 1) Honors versions are available. Sequence starts in the fall. Must apply to add the class.
- 2) Talk with advisors to see how other calculus sequences fulfill this requirement.
- 3) 3 upper division labs required:
  - Fall options: Chem 5710 (org, 1<sup>st</sup> half), Chem 5730 (inorg, 2<sup>nd</sup> half), Chem 3525 (molecular DNA lab, full)
  - Spring options: Chem 5700 (analytical, 1<sup>st</sup> half), Chem 5750 (chembio, 1<sup>st</sup> half), Chem 5720 (pchem, 2<sup>nd</sup> half), Chem 3515 (biochem, full)
  - 2 Credits of one of the following fulfill one Advanced Lab: Chem 4800, Chem 4965, or CHEM 4999
- 4) Total of 8 Hours of biochemistry electives needed. Check Degree Audit for options. Meet with advisor to have questions answered.
- 5) Your ePortfolio should be started after finishing Ochem 2 and can be found on Canvas. If you do not have access, please reach out to an advisor.
