

Instructions for Connecting to the NMR Archive

On the Mac (Validated under Mac OS X revisions 10.5.8 and 10.6.3)

- 1) Activate the Finder.
- 2) Under the 'Go' button click 'Connect to Server' or '<cmd>K'.

A new 'Connect to Server' window opens.

In the 'Server Address:' dialog box type:

nfs://nmr-sun.chem.utah.edu/archive/your-user-name

Click on 'Connect'. A new window opens, allowing direct access to your archive files.

On the PC (Validated under XP and Vista)

- 1) Select 'Start', then 'My computer'. A 'My Computer' window will open.
- 2) Click on the 'Tools' menu tab and select 'Map Network Drive' from the drop down menu (XP), or select the 'Map network drive' menu option (Vista).

In the dialog box type the following:

\\nmr-sun.chem.utah.edu\archive\your-user name

A dialog box opens with a prompt for your username and password. Supply both the hit <return>. A new window will open, allowing direct access to your files on the archive.

Protocol written and tested by John Sullivan, 4/5/10. Edited and validated by P.F. Flynn, 5/3/10.
